

OFFICER MAINZ ANSWERS NEGRO'S RAZOR WITH BULLET

And Bad Man Is Now in
Hospital for Repairs.

EXCITING ENCOUNTER AT ISLETA
EARLY YESTERDAY MORNING

A negro named Ellis, about thirty years of age, was brought to this city early yesterday morning after suffering from a severe bullet wound, sustained while resisting Special Officer Charles Mainz of the Santa Fe at Isleta Junction. The negro resisted the officer and drew a razor on him, whereupon the officer, having learned from experience to take no risks with tough hordes at the junction, drew his revolver and fired point blank at the man. The bullet entered Ellis' body about the right hip and came out in front near the right groin.

Mr. Mainz brought the wounded man to the city about five o'clock in the morning, and Dr. Pearce attended to his injuries, after which he was taken to St. Joseph's sanitarium. Dr. Pearce said last night that the wound was a painful one it would have no serious results and gave it as his opinion that in a few weeks the negro would be as good as ever. It was only luck, however, which saved the man's life. The bullet turned outward slightly after entering the hip and ranged near to the surface. Had it taken a straight course Ellis would probably have been instantly killed.

According to all accounts the man has been making trouble all along the line, but he tackled the wrong man when he attempted to assault Mainz. He arrived in this city Saturday in company with three white men from Colorado Springs. North of here he had an argument with a brakeman which almost resulted in a fight. When he got here he attempted to bluff Depot Master Wells with disastrous results.

Wells came upon the negro sleeping in the waiting room. He roused him and asked him what he was doing. Ellis responded that he was going to Isleta. Mr. Wells demanded to see his ticket. He said he had no ticket. Upon the depot master's peremptory order to buy a ticket or leave the premises the negro suddenly went to the window and purchased his ticket, but not until he had an altercation with the officer. He became impudent and made threatening demonstrations which ended in his finding himself suddenly lying flat on the floor with the traitor officer astride of him. Ellis needed little more urging to comply with orders, and purchased his ticket and boarded the train when it left for the south about 12:50.

Wells notified the conductor that he had three men for Isleta. When the train reached that point Ellis refused to get off. The services of Mr. Mainz were called into requisition. He pulled the resisting negro off the platform. The latter picked himself up and pulling out a razor rushed at the officer, to be promptly met with a bullet. He dropped at the feet of the officer and was taken in charge by the officer, who brought him to this city as soon as possible.

HORSE THIEVES ACTIVE AROUND LAS VEGAS

LIVERYMAN CHASING SMOOTH
PERSON WHO HIRED EXPENSIVE TEAM

M. L. Cooley, the liveryman of Las Vegas, who had a span of white mares and a single buggy stolen Tuesday, has traced the thief with the outfit as far as Wagon Mound. At least a man in possession of a team and rig recognized as Mr. Cooley's was seen driving through that place Friday morning about 11 o'clock, going in the direction of Springer, says the Las Vegas Optic.

A well dressed stranger, about 30 years of age, slimly built and smooth faced, appeared at the livery stable Tuesday morning at 9 o'clock and asked for a team and single buggy. He gave his name as Wheeler and said he wished to drive out on the Watson road with his wife and child and would be back by night. Nothing was seen or heard of him until late that

evening when he telephoned from Mora that he had lost his way and would return some time the next day. He failed to appear and nothing more was heard from him, personally, although it was learned that he had passed through Los Alamos and from there to Watrous accompanied by the woman and child. The next heard of him was when he passed through Wagon Mound yesterday.

Officers in all the neighboring towns have been notified and are watching for the horse thief and companions. Billy Jones of this city, is following the thief on a good mount and it is thought that the miscreant is almost certain to be apprehended.

Mr. Cooley values the team and buggy at \$350. He feels confident of regaining his property.

Horse thieves are becoming active around Las Vegas. Day before yesterday Conductor Charles Stevenson went down to the Flint pasture below town to get his driving horse and found that it as well as the horse of R. C. Pittenger were missing. A search was instituted for the animals and it was found that the fence wires had been lifted over posts and shod horses had gone through. So far nothing has been heard of their whereabouts and as they are perfectly gentle and would come home if loose, the surmise is that they were stolen.

SYNOD OF NEW MEXICO NOW IN FULL SWING

PRESBYTERIANS ARE ENJOYING
WELL ATTENDED SESSION IN
LAS VEGAS.

The Presbyterian Synod of New Mexico, in session in Las Vegas, is now well along with the work of the annual meeting and yesterday was devoted to devotional exercises. In the morning Rev. Dr. Edgar W. Work, of Colorado Springs, delivered his famous address on "The New America." Holy communion was observed at the afternoon service and in the evening the synod took part in a union gospel temperance meeting which was held in the Duncan Opera house, with large attendance. The principal address of the evening was delivered by the Rev. W. W. Havens of the Anti-Slavery League, who is now organizing a branch of the league in Las Vegas. There is a large attendance from all parts of New Mexico and Arizona. Albuquerque being well represented.

J. C. Ross, superintendent of the Manual Mission school in this city, has been elected one of the clerks of the Arizona Presbytery for the coming year.

NEW COMPANIES FILE ARTICLES

BOND AND BROTHER, ESPANOLA
MERCHANTS, NOW A FULL
FLEDGED CORPORATION.

The following articles of incorporation have been filed in the office of J. W. Reynolds, secretary of the territory. The G. W. Bond and Brother Mercantile company, The Incorporators are George W. Bond, of Trinidad; Franklin Bond and Louis E. Nohl, of Espanola. MINER SUDDENLY EXPIRES UPON REACHING HOTEL

Hemorrhage Causes Death
of J. R. Dykes.

MAN APPARENTLY IN ROBUST
HEALTH DIES IN FEW MINUTES

J. R. Dykes, of Somerset, Kentucky, a miner, who was on his way to the Belen cut-off to work in the railway construction camps, dropped dead about 1 o'clock this morning at the Savoy hotel, a few minutes after disembarking from train No. 7, which arrived late.

Dykes came in with the carload of thirty-five or forty laborers for the cut-off and was apparently all right when he got off the train. After a few minutes he started to walk from the station over to the Savoy hotel on First street, where he expected to secure a room for the night. He had no more than reached the hotel, and had not gone to his room, when he was seized with a violent hemorrhage and expired in a few moments.

Dr. Elwell, who arrived as soon as the man fell, with blood spurting from his mouth, but before he arrived Dykes was dead. The body was taken charge of by Undertaker Borders and held pending instructions from the deceased's brother, P. F. Dykes of Somerset, who was at once wired of the death. Dykes appeared to be a man of robust health and in excellent physical condition, about thirty years of age, and did not appear to be suffering from lung trouble.

From an investigation of his effects it was discovered that he is a member of local 136, district No. 11, of the United Mine Workers of America, Clinton, Indiana. He had about sixteen dollars on his person, besides his other possessions.

ACTIVITY CONTINUES IN JARILLA DISTRICT

VARIOUS COMPANIES IN NEW
FIELD ALL BUSILY AT
WORK.

Correspondence Morning Journal.
Jarilla, N. M., Oct. 6.—The Ferro Ore and the Iron Hand, owned by Mr. Paul Ream, of this place, is an iron-gold proposition, and to reach the junction of the two veins, it is the intention of the owner to sink a working shaft on the Ferro and follow it to the crossing of the Iron Hand, where the best values are expected to lie.

Within the past few days the Nashville shaft of the Excelsior company has opened. Four feet of sulphide has been opened, and is being followed. Some of the ore runs as high as 22 per cent in copper. The ore carries some gold and a little silver. The shaft was opened in an old shaft, and seems to have been overlooked by former operators. Every round of shots increases the value of the ore. In order to facilitate the work, it is the intention of the management to install a hoisting plant at once, and hurry the work of development.

The Lincoln property has opened ore at another point, small specks of native copper being visible to the naked eye in the rock. The Lincoln has proved up a continuous body of ore for over 400 feet on one vein. Ore has been piled up on all the workings, and at the present time the property could commence shipments of rock that would run 40 per cent in copper and in gold.

The Farm property, north of Brice, owned by Chelf and Downs, is striking on a shaft that follows a vein nearly thirty feet in width. The ore occurs in brown spar, is stained heavily with copper, and carries some gold. The west drift of the Nannie Baird, on the 500 foot level, is driving in a constantly increasing body of ore, and progresses toward the Maggie shaft, located on the same vein, and which is to follow, until it intersects the latter workings, a distance of over 600 feet.

Announcement from the main office of the Southwest Smelting and Refining company is to the effect that the furnaces of the smelter will be blown in within ninety days.

The north drift on the tunnel level of the Lucky is driving steadily in ore. The drift is following the porphyry for the hanging wall—the foot wall is not in sight. At the point where the drift was started north the vein widened rapidly, its width being such that it will be mined pillar and stall system.

Inspect your library and select the volume of the "Lucky" and then take them to Mitchell's where they can be made good as new at a nominal cost.

THE TURN OF LIFE

A Time When Women Are Susceptible to Many
Dread Diseases—Intelligent Women Prepare
for It. Two Relate their Experience.

The "change of life" is the most critical period of a woman's existence, and the anxiety felt by women as it draws near is not without reason. Every woman who neglects the care of her health at this time invites disease and pain. When her system is in a deranged condition, or she is predisposed to apoplexy, or congestion of any organ, the tendency is at this period likely to become active—and with a host of nervous irritations, make life a burden. At this time, also, cancers and tumors are more liable to form and begin their destructive work.

Mrs. A. E. G. Hyland

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dizziness, palpitation of the heart, irregularities of the bowels, constipation, variable appetite, weakness and inquietude, and dizziness, are promptly heeded by intelligent women who are approaching the period of life when woman's great change may be expected.

These symptoms are all just so many calls from nature for help. The nerves are crying out for assistance and the cry should be heeded in time. Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life. It invigorates and strengthens the female organism and builds up the weakened nervous system. It has carried thousands of women safely through this crisis.

For special advice regarding this important period women are invited to write to Mrs. Pinkham at Lynn, Mass., and it will be furnished absolutely free of charge. Read what Lydia E. Pinkham's Compound did for Mrs. Hyland and Mrs. Hinkle:

Dear Mrs. Pinkham:—I had been suffering with falling of the womb for years and was passing through the Change of Life. My womb was badly swollen; my stomach was sore; I had dizzy spells, sick headaches, and was very nervous.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail

"I wrote you for advice and commenced treatment with Lydia E. Pinkham's Vegetable Compound as you directed, and I am happy to say that all these distressing symptoms left me and I have passed safely through the Change of Life, a well woman. I am recommending your medicine to all my friends."—Mrs. Annie E. G. Hyland, Chester-town, Md.

Another Woman's Case.
"During change of life words cannot express what I suffered. My physician said I had a cancerous condition of the womb. One day I read some of the testimonials of women who had been cured by Lydia E. Pinkham's Vegetable Compound, and I decided to try it and to write you for advice. Your medicine made me a well woman, and all my bad symptoms soon disappeared. I advise every woman at this period of life to take your medicine and write you for advice."—Mrs. Lizzie Hinkle, Salem, Ind.

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Hyland and Mrs. Hinkle it will do for any woman at this time of life. It has conquered pain, restored health, and prolonged life in cases that utterly baffled physicians.

The Southwestern Press

Has No Terrors.
There is an abundance of cumulative evidence that the Second Judicial district at last has a judge for whom the political demi-monde has no terrors. "Report speaks goldenly" of Judge Abbott. May he live long and prosper.—Socorro Christian.

Miners Not Hiding.
The report that was circulated in Gallup last week to the effect that forty men had left Clarkville to go south was a grievous mistake. The Republican is informed by parties in a position to know that no such number of men had left the camp. The big mines at Clarkville are working a huge force and the output is increasing which is good news for the people of McKinley county.

Up Against It.
The News contains an article this week from an advocate of single statehood. While the writer depicts a bright future for New Mexico and portrays the beauty of a great state, yet he does not seem to realize that we are "up against it" and no chance to remedy the already bad conditions under which we labor for the republican congress will give us nothing but the joint article.—Captain News.

An Interesting Supplement.
The Alamogordo News is publishing a serial story in four issues, first installment this week. The characters are well known to the county people, and there is a distinct moral to the plot. The author is J. C. Dunn, treasurer and collector of Otero county, and the story title is the "Delinquent Tax." The readers of the News may not have realized the cause but that is the reason that paper is so unusually interesting this week.—Otero County Advertiser.

The Doom of the Gun Toter.
One of the justice courts this week sent a hobo to jail for thirty days for packing a six-shooter. The court was right in dealing out this severe punishment. The man who packs a gun is considered by his person in a quiet, orderly city like Gallup ought to go to jail. There is no need of a gun in the pocket in Gallup, people are law-abiding and not a man of sawed off shot gun holders and the man who carries a concealed weapon in this town is not doing it for self protection, but for some other purpose. The quicker the gun packers are made to see the error of their ways the better off the community will be.—Gallup Republican.

No Dodging the Fact.
When it comes down to brass tacks there is no dodging the fact that joint statehood is coming just as sure as little green apples come in the spring. New Mexico will be reunited by the measure, and so will Arizona; a bunch of office holders will be out of their cozy fat jobs, but because a few government officials at Santa Fe want to hold down their soft jobs it is no reason why the people of this great territory should not have the rights promised to them so many years ago. The territory is justly entitled to statehood, as is Arizona, and not one good reason except selfish ones on the part of Arizonians can be put forward against the two territories going in as one great state in the union of states.—McKinley County Republican.

A Model County.
The affairs of this county are in such sound condition that the board of county commissioners met but one day to transact the business of this quarter. Such a splendid condition reflects to the credit of the county. The affairs of McKinley county are conducted in business like manner by the business men, and are not made the loophole for political ring jobbery as they are in some localities not so far from this county. If some of the Arizona editors who are howling about the rottenness of New Mexico's officials and official business, could take a little time off from admiring Mark Smith and roasting this territory, to look over the records of this county they might be made to see that public matters are conducted as they should be in this end of the territory.—Gallup Republican.
